

Garland

Step 1: Print on sticker paper following manufacturer's instructions. Print as many as you will want to use, depending on how much you want to cover or decorate in your project. (You can also print on regular paper and glue the stickers to each other if you prefer.)

Step 2: Let paper dry several minutes before handling.

Step 3: Grown-ups only: Cut lengths of fishing line to form your streamers - vary the lengths if you like!

Step 4: Cut out your stickers (grown-ups only) and then stick them to each other in pairs, sandwiching the fishing line.
