

Faux Gingerbread Folk

Here's a crafty way to make a batch of gingerbread people this holiday season, no mixing bowls required.

Materials

- Scissors
- Brown felt
- Fabric glue
- Uncooked rice
- Lentils or beans
- White and colored puffy paints

Step 1:

For each beanbag, help your child create two matching gingerbread shapes from the brown felt by trimming the shape of this pattern, and then using a pencil to lightly mark the shape. Use scissors to make the final cuts along the pencil line.

Step 2:

Use the fabric glue to seal the two shapes together at the edges, leaving an inch-wide opening along the seam. Fill the beanbag with the rice, lentils, or small beans, then glue the opening shut.

Step 3:

When the glue has dried, help your child decorate each one with puffy paint outlines, buttons, and facial features.
