Instructions:

In each of the following lists, one letter of the alphabet stands for another letter (for example, a *G* might stand for *B*, and the word *balloon* might look like "GCDDZZP." **The code is different for each list!**

Tips for solving:

- Look for unusual punctuation or patterns of letters within the words; sometimes you can guess a word on the list, which will help you figure out the code.
- If you need a hint to get you started, look at the box labeled "Hints." There, you'll find the first item on each list. If you're really stuck, you'll find the complete answers on the last page.
