

Glittery Owl T-shirt Instructions

1. To make a stencil, lay the freezer paper over the owl template and trace it, including the eye and beak details.
2. Use a craft knife (parents only) or scissors to cut out the body (A). Iron the stencil onto the shirt, shiny side down, making sure you get a good seal. For a more stable surface, turn the tee inside out and iron a piece of freezer paper to the back of the area you plan to embellish, then turn the shirt right side out.
3. From the freezer paper owl, cut out the area around the face and beak (B) and the eyes (C). Position these pieces on the shirt and iron them in place.
4. Using the foam brush, coat the spaces inside the stencil with a thin layer of the adhesive.
5. Generously sprinkle glitter on top. Shake off the excess glitter, then let the glue dry (about 2 hours). Follow the directions on the glue to heat-set the shirt.

You will need:

- Owl template (above)
- Freezer paper
- Craft knife or scissors
- Iron
- T-shirt
- Foam brush
- Simply Screen Foil & Glitter Adhesive
- Fabric glitter
