

Go to the head of the class with these fun stickers or labels. They're perfect for decorating book covers, backpacks, and more.

#### Materials:

Sticker Paper for Ink-Jet Printers

Scissors

#### Step 1: Print

Load sticker paper following printer instructions. (Handle paper by the edges to avoid fingerprints.)

Print **Sticker Template** using your ink-jet printer. (For best results, load only one sheet at a time.)

#### Tips & Tricks:

- To select the proper print settings in Adobe Acrobat click Print; in the print dialogue box select properties; choose the appropriate paper type; and then select the highest print quality.
- We recommend that you run a test print on regular paper to double-check the layout and design. (If problems occur, check your printer manual for additional printing instructions.)

#### Step 2: Dry

Let paper dry several minutes before handling.

#### Step 3: Cut & Stick

Using scissors, cut out all your stickers. Whenever you're ready to use the stickers, peel off the backing and stick.
