

1. Print out all the pages of the Cute Creature Pencil Toppers. Fold the first page in half along the dashed line away from you. Unfold the page and spread glue over one side of the page. Be sure to spread the glue over the blank side of the page. Refold the page and smooth out. Let the glue set for a few minutes.

2. Cut out all of the pencil toppers along the outer solid line. For a cleaner look, cut off the thin border, leaving the creature on a white background. Be sure to cut out the semi circle at the top of the creatures. All of them have the semi circle, except the teal raccoon on the second page.

3. Once the creatures are cut out, use a craft knife (or scissors) to carefully cut along the dashed lines on each creature. There are two dashed lines on each side of the creature. Be sure to not cut beyond the lines, or you may separate your creature from its bottom part.

4. Take a pencil or pen, and tightly wrap the bottom white strip of the creature around the top of the pencil or pen, about a 1/2 inch from the top. Hold it firmly and tape the wrap to itself. To keep the topper from sliding down, wrap a piece of tape three or four times around the pencil or pen, just under the creature topper. Repeat these steps with the second page of pencil toppers. Your creature will hopefully make homework and school a little more fun!
