

1. Print out the lantern and cut it out. Make the appropriate cuts along the solid grey lines at each tab.
2. Fold all dashed lines away from you.
3. Starting at one end of the lantern, glue or tape each tab to the back of the opposite panel. Continue down the lantern. Complete the lantern's shape by gluing or taping the end tabs to the opposite end of the lantern.
4. Punch two holes at the top of the lantern where indicated with dark circles. Cut a small amount of string and tie each end to a hole. You can hang a single lantern or you can tie several lanterns to a long ribbon or string for a festive collection of lanterns.

Do not place a flame or light inside the lanterns.
